

Envirolab, a member of RSK Group plc, is an analytical laboratory with an outstanding track record for delivering analysis competitively and on time. The company provides environmental analytical services predominately of soil and groundwater samples. Because of recent expansion, the Cheshire lab is now looking to recruit an experienced Analytical Chemist to work in a UKAS and ISO 9001 standard accredited lab.

### **Inorganic Analyst – Hyde, Cheshire**

Key responsibilities:

- Carry out technical work in accordance with Envirolab procedures
- Ensure all work completed is according to UKAS and Envirolab QMS requirements.
- Calibration of all laboratory equipment – balances, dispensers, pipettes.
- Carry out and document regular instrument maintenance.
- Process, calculate and check analytical results
- Carry out regular SHEMS inspections

### **Experience**

The ideal candidate will have experience working in a similar contract laboratory environment and be proficient in the use of relevant analytical instrumentation (HPLC, TOC/DOC, ICP, FIA/Skalar, Aquakem). The ability to troubleshoot instrument faults would be an advantage.

The successful candidate may also need to assist in sample preparation for various analyses so any relevant experience with these would be an advantage.

Assistance in other parts of the laboratory may be a requirement also.

### **Salary and benefits**

- £negotiable
- Contributory Pension Scheme;
- A flexible benefits programme including the option to buy additional holidays, childcare vouchers and private health care;
- Flexible working hours;
- Regular training and development.

All candidates applying for positions with RSK Group must be eligible to work in the UK/European Economic Area. For more information, please call Lauren Reynolds, HR Advisor on 0117 300 4280 or email [lreynolds@rsk.co.uk](mailto:lreynolds@rsk.co.uk).
