

## Envirolab results online

**Real-time results can be viewed at any time using Envirolab's web-based OWL tool**

Log onto Envirolab's website ([www.envlab.co.uk](http://www.envlab.co.uk)) and click Online services at the top and enter your login details. This will allow you access to view all projects received for your office.

If you are unsure of your account details or require a new account, please contact your client manager on 0161 684921 or [ask@envlab.co.uk](mailto:ask@envlab.co.uk)

### **Finding your project**

Enter your project number or site name into the search. This will bring up all projects matching these details.

*or*

Click on the heading "Envirolab Project Ref", "Project Ref" or "Project Title" to change the sorting order to alphabetical or low to high project numbers.

### **Viewing real-time results**

To view real-time results, click on 'Download' under the 'Interim results' title. This will bring up an Excel document showing any results currently available. Please note that these are all subject to final QC clearance before confirmation.

### **Finding completed projects**

Excel, PDFs and AGS data can all be found for previously reported projects by clicking on the icon or appendix (Apx) under the 'Final Reported' title.

Use the Home icon to return to the home page listing all projects if required.

Use Log Off icon when you have finished accessing your results.

**OWL**

**The easy to way to keep track of your projects**
